

Duong Van Minh Vi

Software Engineer

📍 Hoc Mon, Ho Chi Minh City ✉ dvmv2017@gmail.com ☎ 0772912452 🌐 [Portfolio](#)

Summary

Software Engineering student experienced in building full-stack web applications using React, Node.js, Spring Boot, and MongoDB. Skilled in developing RESTful APIs, scalable e-commerce systems, and responsive user interfaces. Interested in backend systems, web architecture, and solving real-world product problems.

Education

Sai Gon University (SGU)

2022 – Present

Information Technology – Software Engineering

Technical Skills

Languages: JavaScript, Java, PHP, Python, C#, C/C++

Frontend: React, TailwindCSS, HTML5, CSS3

Backend: Node.js, Express.js, Spring Boot, REST APIs

Databases: MongoDB, MySQL, SQL Server

Tools: Git, Cloudinary, CI/CD, Vercel

Projects

VSport – Full-Stack E-Commerce Platform

React, Node.js, MongoDB

[Live Demo](#) [Source Code](#)

- Built a full-stack e-commerce platform using React, Node.js, Express, and MongoDB with RESTful API architecture.
- Implemented authentication and role-based authorization using JWT with Google and Facebook OAuth login.
- Developed product browsing, filtering, shopping cart, and checkout features with VNPAY payment integration.
- Built an admin dashboard for managing products, users, orders, and viewing revenue analytics.
- Integrated Cloudinary for scalable media storage and optimized product image delivery.

GalaxyCine – Movie Ticket Booking System

PHP, MySQL

[Live Demo](#) [Source Code](#)

- Developed an online movie ticket booking system with PHP and MySQL supporting movie browsing and seat booking.
- Implemented ticket booking, combo ordering, and automated email invoice features.
- Built an admin panel for managing movies, showtimes, staff accounts, and revenue tracking.
- Designed relational database schema and optimized SQL queries for efficient data retrieval.

GiftShop – E-Commerce Website

PHP, MySQL

[Live Demo](#) [Source Code](#)

- Built an e-commerce platform with PHP and MySQL supporting product browsing and order management.
- Implemented authentication, order tracking, promotions, and profile management.

- Developed an admin system to manage products, customers, orders, and promotional campaigns.
- Designed normalized MySQL database schema and optimized database queries.

Experience

Technical Support Collaborator (Remote)

Sep 2025 – Present

Omni Themes – Shopify Ecosystem

- Provided technical support for Shopify themes and apps using Liquid, HTML, and CSS.
- Communicated with international customers in English to troubleshoot technical issues via Crisp.
- Collaborated with developers to reproduce bugs and validate fixes before deployment.
